Experience behind every operation

The Peru–Bolivia corridor is central to our history and to the cross-border knowledge we share with our customers.

Our own authorized vehicles and partner carriers, according to the requirements of each operation.

01 / H & B TRANSPORTES INTERNACIONALES

Specialists in the Peru–Bolivia corridor.

We specialize in the Peru–Bolivia corridor. We also assess and coordinate operations to other countries, subject to route and availability.

- We transport consolidated and full / exclusive truckloads (FTL).
- We coordinate pickup and delivery.
- We review transport documentation.
- We coordinate with customs agents at borders and destination.
- We select flatbeds, semitrailers and enclosed vehicles to suit your cargo.

Peru

Bolivia

Other destinations

We coordinate customs procedures with specialist agents and strategic partners, within the agreed scope.

Ask us about Argentina, Brazil and Chile. We assess the route and coordinate each operation according to availability and your cargo requirements.

Coordination tailored to your cargo and destination

We review your company's requirements and the international route. We coordinate transport and the documents needed for each operation, integrating specialist support where required.

We verify the authorizations, vehicle approvals, driver documentation and insurance applicable to the operation.

We coordinate transport documents and review the cargo documentation needed for border transit, according to the country and applicable regime.

We coordinate safety requirements, inductions and entry protocols at origin and destination.

We review scope and requirements before confirming the service, according to the cargo, countries involved and the conditions of your operation.

02 / HABIT LOGISTICS

Your cargo, across Peru.

We coordinate domestic road freight with our own vehicles and partner carriers. Each route is assessed according to the origin, destination and cargo.

- We transport full, dedicated and consolidated loads.
- We coordinate pickup and delivery.
- We organize domestic distribution to meet your needs.
- We assess the route and vehicle for each operation.
- We follow up on the service within the agreed scope.

Illustrative image

Aligned with your operational requirements

We review your company's transport, safety and site-access requirements to coordinate the vehicle, driver and relevant documentation.

-  We review vehicle authorization, SOAT insurance, valid technical inspection, the appropriate driving licence and dispatch documents.
-  We coordinate applicable SCTR coverage, personal protective equipment, inductions, IPERC risk assessments and entry protocols.
-  We agree schedules, pickup and delivery points, and loading and unloading conditions.

We review requirements before confirming the service, according to the cargo, route and your company's facilities.

Domestic coverage

Southern, central, northern and northwestern routes. Other destinations are assessed according to the operation.

Cargo types

 Boxed goods  Machinery  Spare parts  Electronic equipment  Dry bulk cargo

We do not transport hazardous materials or food requiring refrigeration.

03 / LA VICTORIA · LIMA

Space for your goods.

Storage space per m² for businesses and suppliers in La Victoria, Lima. We assess your goods and space requirements to agree on availability, duration and terms.

 Space per m², subject to availability.

 Assessment of the type of goods.

 Storage period and terms to be agreed.

Current service: space only. Receiving, loading, unloading, movement records and inventory management are not included.

HOW WE WORK

How we work with you.

**Tell us what you need**

Share the service you need and a brief description. Our team will help clarify the details.

**We assess your requirements**

We review the cargo, route or storage space required, and availability.

**We prepare your quote**

We present the scope, terms and quotation for your approval.

**We coordinate and follow up**

We organize the service and keep in touch with you within the agreed scope.

GRUPO HABIT

Four pillars for coordinating your cargo

**Border expertise**

We understand the operational and documentation requirements of the Peru–Bolivia corridor.

**End-to-end transport coordination**

We coordinate pickup, transport and consolidation where needed, through to the agreed destination.

**Operational flexibility**

We arrange dedicated or consolidated loads in trailers, flatbeds or box trucks as required.

**Operational documentation support**

We review transport documents to reduce border issues, with specialist support where needed.

Coordination and visibility for your operation.

GPS tracking on vehicles equipped with this technology, subject to availability and agreed service terms. Coordination with partners to support transport continuity.

Special requirements, tailored coordination.

We coordinate escort vehicles through partners for operations that require them, following an assessment of cargo dimensions and route.

STRATEGIC DIRECTION

What drives us.

OUR PURPOSE

To connect businesses, markets and opportunities across borders, making freight transport a bridge to our customers' growth.

Mission

To provide domestic and international road freight solutions, coordinating each operation with experience, flexibility and border expertise to reliably connect our customers with their destination markets.

Vision

To become a leading road freight business group connecting Peru with the region's main markets, recognized for our experience, reliability and operational capacity, building long-term customer relationships and progressively strengthening our transport network and fleet.

Our values

01 Trust

Clear commitments and transparent relationships with customers, carriers and partners.

03 Experience that solves problems

Practical knowledge to anticipate difficulties and find solutions.

02 Responsibility

Care and order in every operation, recognizing what each shipment means to our customers.

04 Continuous improvement

Better processes, tools and technology to improve our service.

A new stage of growth

We are strengthening our operations, network and fleet to support more businesses. We are introducing better processes and technology to deliver an increasingly reliable, safe and competitive service.

ONE CONTACT TO GET STARTED
